

I am writing you concerning KLOVE radio station. KLOVE has served the OKC area for several years now and it is vital that it remains on the current FM translator service. The effort that our community has put out to keep KLOVE in service and on this station is unbelievable. Many business' and personal interest depend on this uplifting, motivating music to get them through the day. People need encouragement, and this station gives that to thousands daily. Please do not replace this network with low power FM. God has richly blessed many by KLOVE, please do not take it away.

Thank you.

Angie Hattler
